

OLYMPIC MR16 BOLLARD LIGHT

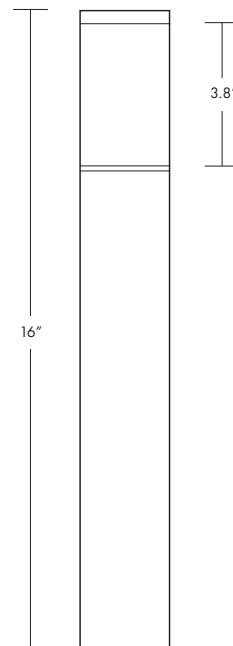

DESCRIPTION

The Olympic Bollard Light comes complete with an 360° frosted acrylic cover and when ordered with a lamp, includes a Chameleon MR16 Lamp for RGBW designs. This bollard light is a perfect way to add color to your pathways and walkways. For non-RGBW applications, order the Olympic without a lamp and pair it with any of our other MR16 lamp options.

SOFT SOIL APPLICATIONS: INSTALLING THE GROUND STAKE & FIXTURE

1. Connect the power cable from the fixture body to the landscape cable.
2. Lay the power cable into the slotted relief on the stake.
3. Press the fixture and stake into the ground.
4. Use a level to ensure the top of the stake is level with the ground.

HARD SOIL APPLICATIONS: INSTALLING THE GROUND STAKE & FIXTURE

1. Dig a hole approximately 4” wide by 10” deep and gently tap the stake into the ground with a rubber mallet.
2. Use a level to ensure the top of the stake is level with the ground.
3. Reinstall the fixture body onto the stake and lay the power cable into the slotted relief on the stake.
4. Connect the power cable from the fixture body to the landscape cable.

INSTALLING THE LAMP

1. Unscrew the threaded acrylic top assembly.
2. Install the MR16 lamp using the supplied snap ring. (No tools required.)
3. Install socket onto lamp.
4. Screw the acrylic top assembly into fixture.
